

RT Series

RT Series - Twin channel installation amplifiers for distributed systems

Applications

- LMT for Large Installations
- Transportation Terminals
- Concourses & Amusement Parks
- Educational Installations
- Corporate AV
- House of Worship
- HoW, leisure centres and retail outlet

Features

- Extremely versatile; Supports 2, 4, 8-ohm loads and 70V/100V outputs
- Space saving 2 U design & industrial build quality
- Selectable high-pass filters
- Reliable toroidal power supply
- Bass response correction for better low frequency response

Products in the Series

- RT 350
- RT 700

The RT series represents an affordable and reliable range of amplifiers for distributed audio systems. The in-built transformer allows 70/100v loads while also being able to support low-impedance systems. The minimal design & industrial build quality make it an ideal choice for commercial installations

RT700

Dual Channel, 700W installation amplifier

Technical Specifications

Rated Power / Channel (8 Ω)	360W
Rated Power / Channel (4 Ω)	625W
Bridged Power at 8 Ohms	250W
Dampning Factor	> 200 at 8ohms
Signal to Noise Ratio (1 kHz, 8 Ohms)	- 100 dB
No of channels	2
Controls	Ground / Lift Switch, Bridge/Parallel Switch
THD	< 0.02% THD / 4ohms and 8 ohms

General Specifications

Enclosure	Compact Steel Chasis
Knobs	Controlled Increment ABS Knobs
Finish	Charcoal Slate Finish
Mounting System	19" Standard Rack Mount Ears
Height	5.25" (3 RU)
Width	19"
Depth	14"
Weight	31 Kgs
