The Delta 15 LA is the all new Self Powered High Performance Line Array System from British Acoustics. Leveraging from the success of Delta 40 LA, the new Delta 15 LA has enhanced efficiency, voicing and control parameters. Our signature 8" Low-Frequency Drivers now feature an aluminium demodulation ring for better harmonics and minimal distortion. The amplifier module can now handle 3600W of peak amplification energy and house the new DSP with FIR presets. The Delta 15 LA is here to change the way you tour with your powered Line Array System
